

## Jacob Williams #247 Pre Race report 2010

Hi everyone, well my preseason training has been going really well, Dad is getting my KTM 85's sorted and running good, Beans has done me a cool race motor and Gilsey has got my suspension on both practice and race bike sweet.

I have been in regular contact with Mossy and he has been telling me what I need to do for my training next, this has been each week so I am building both strength and skill, on the bike and I am feeling pretty good.

I got to ride with Jay Marmont and Cheyne Boyd on Monday, that was so cool but Merv said I wasn't allowed to take them out Lol, Boydy and Dacky said I had awesome fast entry and exit speed in the corners, on Wednesday I got to ride with Cody Cooper and Lawson Bopping, it has been so much fun and they both said I'm riding well and fast, Merv aka Dad reckons I'm spoilt rotten.

I am feeling comfortable on the KTM 85BW, I think I was just a bit small last year, I have been working real hard on my line selection into and through corners so I can be fast even when the track isn't, I still have problems when the track gets really rough, but less and less as my strength increases, and by changing lines also makes it easier.

My first race will be in a couple of weeks and I am really looking forward to it, Merv's not sure if it will be in Warrnambool or Baccus Marsh twilight, I have the new white Answer and Sixsixone race gear so it would stand out heaps at a twilight meet, I just know that I am ready to race (call me KTM lol).

I have been lucky enough to get some new friends, KLM concrete Horsham, Fullnoise.com.au and Scott goggles, its so cool that these people and all my other sponsors believe in me, to see my other sponsors go to [www.jacobwilliams247.com.au](http://www.jacobwilliams247.com.au) Shannon from Harding design, print and sign in Perth will be updating my site soon, he is also one of my good friends.
